

ESSENTIAL REHAB SOLUTIONS

Putting the Pieces Back Together

The Essential Difference

Utilizing complementary modes of therapy, Essential Rehab Solutions brings all the pieces of the puzzle together to improve the lives of our clients while helping our partners succeed.

As an integrated team of highly-trained problem solvers, we always work to keep the big picture in mind. Our flexible approach allows for tailored care to meet individual needs in a range of settings. For us, the right fit is the best fit for the client and facility alike.

Partnered with skilled nursing facilities across the map, **Essential Rehab Solutions** offers customized solutions designed to help facilities grow and thrive.

Partners for a Purpose

For our partners, Essential Rehab Solutions is the missing piece of the puzzle to success. Working with skilled nursing facilities throughout the region, we bring together distinct yet complementary fields to change lives and help facilities grow.

Essential Rehab Solutions employs a range of innovative solutions to help our partners navigate the complex needs of the modern healthcare environment. Designed to provide the highest quality service, our services allow our partners to focus on running their business while we take care of the rest.

Our Services

We can help facilities with:

- Clinical audits for denial prevention and management
- Monitoring PRN and PTO Usage
- Overtime management
- Group percentage utilization
- Clinical appeals
- Therapy productivity implementation
- Part B program management
- Medical review
- Data Analysis
- MPPR cost absorption

Flexible Programs

Tailored to our partners' needs.

TELEHEALTH

- Follows CMS guidelines to ensure residents received the highest quality of care.
- Virtual visits allow for decreasing patient exposure to staff members.
- Partnered with MedBridge for HIPAA-compliant technology.
- Continuum of care at home with telehealth visits and outpatient services.

PDPM SUPPORT

- Collaborate with MDS for accurate coding of CMGs.
- Evidence-based care and outcome measurement for PDPM clinical categories.
- Therapist guide for efficient use of clinically appropriate modes of treatment.
- Successful resident-centered assessment, treatment, and engagement.

Always Learning

Continual learning defines our work culture, ensuring our clients and partners benefit from the latest in virtual healthcare knowledge and technologies.

Through our partnership with MedBridge, each of our therapists receives ongoing training on new industry regulations and therapy practices. Our specialists are also trained to create home programs for clients and provide telehealth therapy as needed in order to ensure flexible, quality care in any environment.
